

Medicine Wheel Memory Game Instructions

Objective:

Children match a Medicine Wheel color with its correct direction.

Pairs to Match:

- Yellow → East
- White → North
- Red → South
- Black → West

How to Play:

1. Print and cut out all cards. You will have 16 total cards (4 colors + 4 directions, each repeated once).
2. Shuffle the cards and lay them face-down in a 4x4 grid.
3. Players take turns flipping over 2 cards.
4. If a color and its matching direction are revealed (e.g., Yellow + East), the player keeps the pair and takes another turn.
5. If the cards do not match, flip them back over and try again next turn.
6. The game continues until all pairs have been found.
7. The player with the most pairs wins!

Tips:

- Laminate the cards for reuse and durability.
- Play as a team for younger children or early learners.
- Use the game to reinforce Medicine Wheel teachings.
- For younger players, simplify the game by only matching colors to colors or directions to directions.
