

Reusable Prompt for a Square Medicine Wheel Poster (Website-Ready)

Can you create a 768x768 pixel PNG image in the same style as the Medicine Wheel Elements poster (with a beige background, bold direction labels, clear icons in each quadrant, and simple plant decorations)

I'd like the following labels and layout:

- Top (North): [Your label here]
- Right (East): [Your label here]
- Bottom (South): [Your label here]
- Left (West): [Your label here]

Please match the colors and clarity from the Fire/Water/Air-style wheels, and make it website-embedding friendly (PNG, no text blur, square proportions).
